

Loyal employees at Ferdinand Eisele GmbH

Management honours six people celebrating their jubilees

In 2016, Ferdinand Eisele GmbH in Birkenfeld can look back on a 85 year old company history, and it could always rely on the competence of loyal employees. The company, also known by its brand eXtra4 Labelling Systems, provides identification technology for jewellery, watches and other products, i.e. labels, software and hardware for labelling goods. As part of a festive lunch to close the 2015 business term, the management was pleased to thank six employees for their many years of service:

Ms Eva Vogt has been responsible for graphics and printing plate production for 15 years. Just as long, Mr Friedhelm Kather has been standing his ground at the labels machines. For 20 years already, Mr Giuseppe Carbone has been part of the team at the machines as a competent worker. Also for two decades, Mr Jürgen Messerer has been proving his virtuosity as an accountant in dealing with figures and finances. Ms Ingrid Wuttke has been committing to billing and delivery in the company already for a quarter of a century, while Mr Jörg Nonnenmacher has been working in production for 30 years and holds a senior position there.

General Manager Alex Schickel handed a bouquet of flowers to each of them in appreciation of the long time that these employees have devoted their commitment to the company.
